

Please do not upgrade sharing information by loading from USB data1 or data2.
This can make serious working problems!!!

Receiver software enable to load all information directly from simple text file.

Text file name must be set to: [allshares.dat](#)

Inside you can include boxid, ras key, cccam and newcamd information as follow:

```
1 M: N 3 DBC09CFD423834E6 E3778CFF07D66140ED944C5DA856479EA10B0CEC47AB16B5DE6AE9
2 C: url1.cccam.com 38000 login password
3 C: url1.cccam.com 39000 login password
4 N: url1.newcamd.com 38000 38005 login password 0102030405060708091011121314
5 N: url2.newcamd.com 39000 39005 login password 0102030405060708091011121314
6
```

1. To update cccam and/or newcamd information go to -> *Upgrade By USB* and choose:

2. To update boxid and rsa go to -> *Conditional Access* -> ● *Edit* -> *Update*

Next you must choose **Save** and than Exit
